

Embro Soccer Field 2017 – Estimated Dimensions of Soccer Field

The Township of Zorra, along with the Government of Canada, has invested funds, celebrating the 150th Anniversary, into the upgrade and improvement of available soccer fields in the Township. It was identified that Embro did not have dedicated space for soccer and thus a full-size soccer pitch is being constructed at the Embro Community Centre with anticipated completion in 2017.

The map below depicts the new field location and the estimated dimensions of the field and the surrounding area. As these grounds are utilized for a variety of events and activities, a document outlining the 'Guidelines for Sport Field Use' is available for anyone wishing more information on how their event can incorporate the soccer field into their plans.

Legend:

-  Perimeter of Soccer Pitch/Playing Surface
-  Point when elevation begins to change up/down from the playing surface to the natural elevation of existing landscape.
-  Point when elevation change ends to the natural elevation of the existing landscape.
