

# ROADMAP TO TRAFFIC CALMING IMPLEMENTATION

## 1. Submit your Request Online

Please find the applicable Traffic Calming Request Form under 'Forms' on our website.

### Make sure to include

- Contact information
- Description of the concern
- A sketch and photograph of the location

## 3. Neighbourhood Support Form

If the road is eligible for TCMs, you will be directed to complete a Neighbourhood Support Form. Applicants must receive support from >50% of the households in the affected area as noted in the Response Form.

## 5. Design Consideration and Community Feedback

All appropriate TCMs will be considered. External consultants and residents will be notified and engaged in the decision-making process

## 2. Eligibility Assessment

Township staff will review the application and determine if the road of concern is eligible for traffic calming measures (TCM). This process may take up to **10 business days**

## 4. Data Collection & Assessment

Township staff will conduct a TCMs Needs Assessment following the submission of a completed Neighbourhood Support Form. If the area meets the proper criteria, staff will evaluate appropriate TCMs. Data collected includes features such as speed, volume, and road characteristics.

## 6. Implementation

Traffic calming plan is finalized and implemented.
